## Fund Development Events and Projects

One of the key components of Fund Development is cultivating relationships with businesses and community members to increase awareness and interest in our agency. One of the ways we do this is through our Fundraising Events. Fundraising Events help support Family Enrichment Network by raising money and bridging funding gaps. We look to supportive members of our community to join and assist us so that we may raise the most possible funds. These events are an opportunity to spend time and build bonds with our many existing supporters, and to also build new relationships with businesses and individuals in our community. We look forward to a year of exciting, successful events and we hope that you will join us either as a participant, volunteer or a sponsorship partner.
